Claims 1-48 are pending.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3, 12-14, 23-25 are rejected under 35 U.S.C. 102(a) or (e) as being anticipated by compound VII is column 3 of Bourzat et al (US 5,608,102).

In Example 4 column 12 to 13, a taxane derivative wherein the substituent 4-fluorophenyl (for the R₃ group) has been prepared. It read on the current R₁ group. The taxanes possess anti cancer activities.

Claims 4-11, 15-22, 26-48 are allowable since the prior art does not teach and/or fairly suggest the current R₅ and R₆ group and the methods of making the claimed compounds.
